

# SkillPort: Re-Imagined!

Your online learning experience is about to change

A new clean, streamlined user interface and navigation helps learners stay focused and find what they need, when they need it.

SkillPort has been the platform of choice for more than 2,300 global organizations and seven million end users. Why? Because SkillPort is an easy-to-implement, reliable and cost-effective system to deploy and track learning content.

Now SkillPort is even easier to use, with an updated user-interface and navigation focused on helping learners quickly get to the resources they need.

## SkillPort puts learning content front and center

### Catalog

SkillPort supports a full spectrum of learning content—formal and informal—to meet a wide range of business needs. Easily navigate a tree-based folder structure to access courseware, custom content, Books24x7®, KnowledgeCenter™ Portals, SkillSoft Live Learning™ and much, much more.

---

### Search & Learn

Central to SkillPort's rich, on-demand learning environment is Search & Learn, which provides learners a fast, easy and effective way to search a broad array of e-learning content.

---

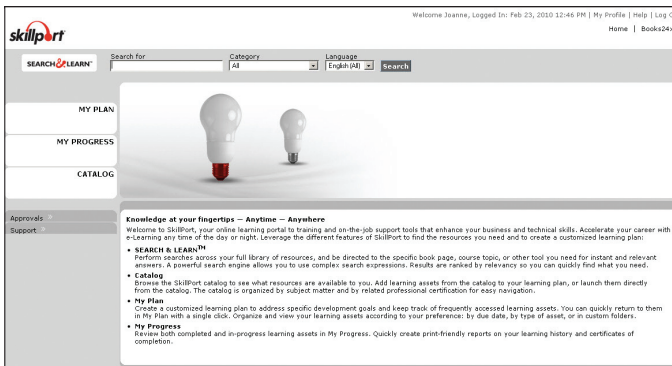

### My Plan

Learners can create and manage their personal plan by adding, scheduling and organizing learning content, including setting and tracking completion goals. Managers and administrators can recommend and assign content to align each learner's My Plan to business objectives.

---

With easy-to-use features and a simple-to-navigate user interface, SkillPort provides learners a quick and uncomplicated gateway to the training and answers they seek.
